EN AW 6063 Aluminium
Stainless Steel

Roof Covering

Suitable for sandwich panel roof covering type.

Color

Aluminum: plate surface. Black coating is available for visible components.

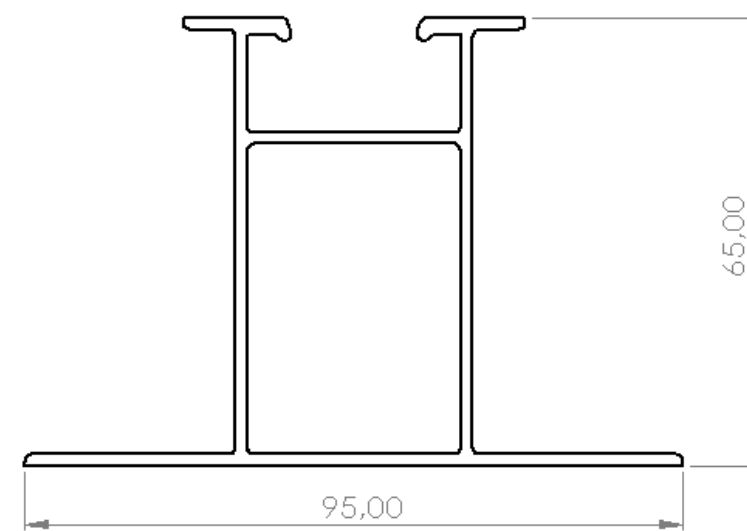

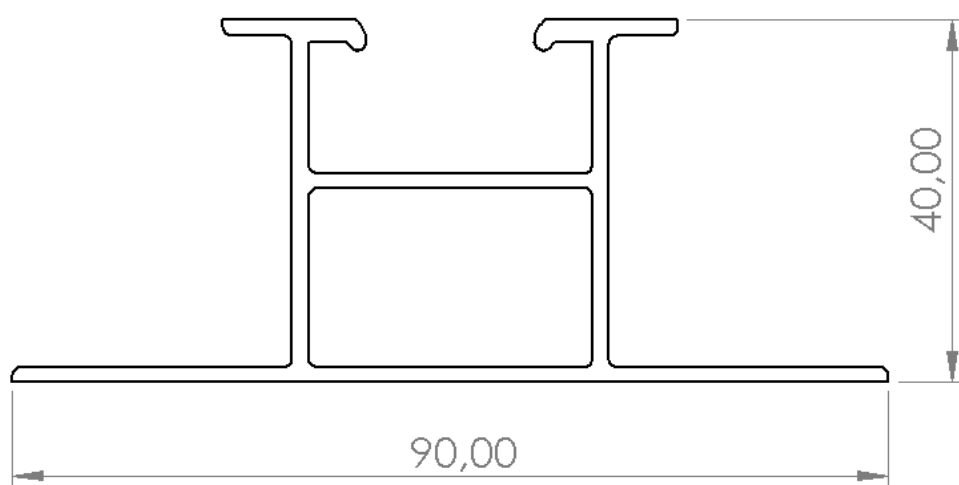

PARTS

001000 - End - Mid Clamp

Suitable for panels with 30-35-40 mm thickness.

1002100 - A Rail

Profile

Unisolar transfers the 46 years of experience from Üstek Makine into solar energy, offering the most reliable and high-quality solutions for your installations with a leading team that has over 10 years of experience in solar energy. With Unisolar construction products, your systems gain the strongest foundation.

- Üstek Makine was founded in 1978 by İsmet Üst.
- The company specializes in the production of 5-axis machining center parts, CNC turning, CNC milling, CNC sliding headstock lathe, and CNC polygon machining.
- Parts for the automotive, agricultural, and textile machinery industries, as well as components for hydraulic systems, aviation, defense, diagnostic industries, water pumps, and wind and solar energy systems are manufactured.
- 60% of the production is exported, with sales to Germany, Belgium, the United Kingdom, Sweden, the Netherlands, Italy, and the United States.
- Üstek Makine, certified by ISO 9001 international standards, employs 80 qualified and experienced personnel.
